Granulated Self-Sealing Ice & Water Barrier

## Enhanced to provide peak protection.

WeatherLock® G Granulated Self-Sealing Ice & Water Barrier allows for proper water flow, helps in preventing damage caused by ice dams. Engineered for asphalt shingles, wood shakes and quarry slate roof assemblies.

- **Added protection**—Acts as a waterproof barrier in the most vulnerable sections of the roof to create a second line of defense. For optimal protection, apply to entire roof deck on 2:12 to 4:12 pitch roofs.
- **Superior tear resistance**—Resists cracking and breaking during installation.
- **Self-adhesive**—Adheres to roof deck and creates watertight seal around nails to prevent water migration. Split backer sheet for easy application and positioning on the roof deck.
- **Slip-resistant granulated surface**—Allows for better traction.
- **Taped selvedge edge**—Improves seal between courses.
